# AUTOLCHI Car Gallery

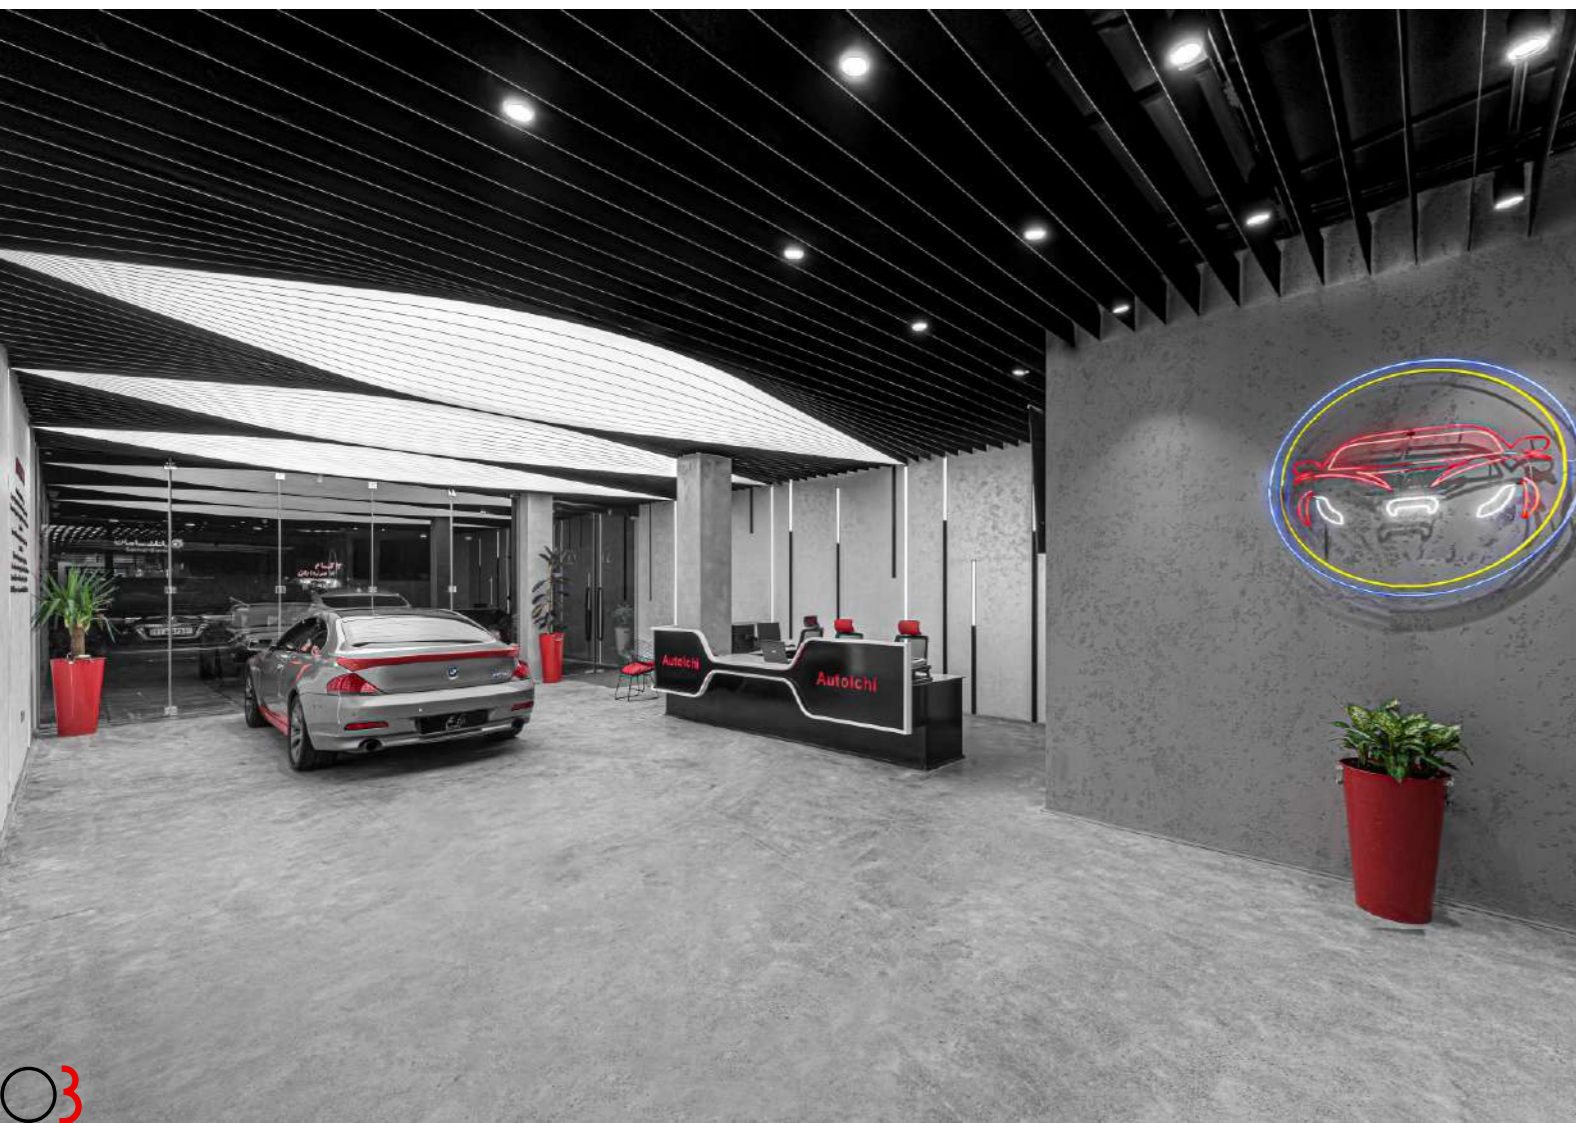

This project is located in a space of 240 square meters in Marzdaran , Tehran. the previous use of which was a real estate consultant, and according to the request of the employer, which is Autolchi company, an exhibition for cars was designed in this space. The main concept of the project was taken from the car, which is the main object of this project. Cars These moving creatures on the streets each have their own personality and appearance. When you look at each of them, they show different behavioral symptoms, laughing, crying, frowning. The eyes of these creatures tell diferent stories and are always etched in our memory. Therefore, in the design of the Autolchi gallery” , these expressive eyes, was the main design concept, which was changed during a process according to the presented diagram, and in accordance with the design, they sat as ceiling lights in the space.
